Dear Dover Civil Air Terminal User:

The Joint Use Agreement (JUA) with Dover AFB allows civilian aircraft to utilize the Air Force's airfield facilities at Dover. Operations into Dover Air Force base requires adherence to the **Mandatory Enhanced Security Procedures (MESP)** established by the Air Force (attached) and the issuance of a Prior Permission Request (PPR). Your adherence to the MESP in addition to guidelines established by the Transportation Security Agency will ensure the safe transportation of your passengers to Dover. Issuance of a PPR for the use of the Dover Civil Air Terminal may be obtained by completing the arrival request forms below. If you have any questions, please contact staff at (302) 571-6375 or (302) 757-2952. We will gladly assist in any way possible.
